

## Waxing Clinic Instructor

There is nothing better than a perfect balance between grip and glide while skiing. Waxing is a science that can look complex but the basics are pretty simple to understand and share. These workshops are primarily for people who want to take care of their skis themselves or transitioning from waxless to waxable skis.

- Time Commitment

Ideally we would like to offer 1 or 2 workshops per week (one glide and 1 kick wax). By experience, 1 hour is enough for each of them but doing both in one session is sometimes too much. Depending on the number of instructors, each of them could have a workshop once every 2 weeks or a bit more.

- # of Volunteers Needed : up to 8

- Duties and Responsibilities

- Being able to introduce waxing to skiers (kick and glide waxing)
- (all waxing material will be provided by the club)

- Required Skills

- Having some knowledge of glide and kick waxing prior to the training
- Being comfortable speaking in public (group of 8 max)

- Required Certification or Documents

None

- Training

Training will take place during one or 2 evenings prior to the start of the events.
