Policies and Procedures

JULY 7, 2021

INTRODUCTION

This Policy and Procedures Manual for the Whitehorse Nordic Ski Society (WNSS) contains the policy governance model, governance process and executive limitations, Board-Manager relationship, operational policies, and operational procedures. This Manual and its policies is subject to the Bylaws of the WNSS.

The Board is accountable to ski club members, and is guided by the club's constitution, Bylaws, Governance Policies and Strategic Plan. The Board operates on the Policy Governance (Carver) Model. This model clearly defines Board and Manager roles and establishes a monitored accountability structure to measure Board and Manager performance.

In a Policy Governance Model, the Board defines the "Ends" or desired outcomes, sets the general (strategic) direction, develops and approves policies and approves an annual budget. This allows managers the flexibility and autonomy to implement actions and strategies to achieve desired Ends in their daily operations. Managers' activities are called the "Means". The Board is focused on the Ends and the Managers on the Means. Both Board members and Managers must constantly be aware of and respect each others' responsibilities for Ends versus Means.

Managers have freedom to operate without interference from Board members in carrying out their operational work to meet the desired Ends or outcomes, so long as they remain within the Executive Limitations set out in the Board's policies. To guide them, the Board has established a set of Operational Policies and Procedures.

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Policy Review	Number:	GI-2

The Board must review each policy at least once in a three-year period. Policies will be scheduled for review at Board meetings, with approximately 1/3 of the Board's policies being reviewed each year. The Board may alter the priority for reviewing various policies.

Individual Board members or a policy committee will be tasked with reviewing policies that are scheduled for review before each Board meeting and will prepare recommendations for amendments for the Board's consideration. Policies are amended by motion of the Board.

The current version of each policy will be available to members on the WNSS website and is the authoritative policy. Drafts of previous policies for reference will be archived in the WNSS's files and will be made available to members on request.

Board members tasked with reviewing policies should consider the following questions, among others, when preparing recommendations for policy amendments.

GP-1 Board Values

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Board Values	Number:	GP-1
Policy Type:	Governance Process	Amended:	July 7, 2021

We are committed to the sustainable existence of WNSS, whose Vision is to “provide opportunities for people of all ages, backgrounds and abilities to pursue wellness, enjoyment and excellence on skis on some of Canada’s finest trails.”

In achieving the WNSS’s Vision and Mission, the Board’s decisions will be guided by the WNSS’s values and by the following Board values:

- Fiscal Responsibility: we commit to good stewardship of resources.
- Respectful and Functional Relationships: we recognize and support individual skills and contributions of Members, the community, Board Members, and WNSS Staff.
- Integrity and Personal Responsibility: we bring our own unique skills and experience to uphold the overall values and guiding principles of WNSS.
- Internal and External Collaboration: we are committed to exploring new and different relationships for creating successful outcomes.
- Pursuit of Innovation and Creativity: we strive to stay informed and to identify new ways for the services of WNSS to remain relevant and reflect member concerns and needs.

GP-2 Governing Style

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Governing Style	Number:	GP-2
Policy Type:	Governance Process	Amended:	July 7, 2021

The Board must govern with an emphasis on Ends rather than Means, commitment to obtaining member input, encouragement of diversity in viewpoints, strategic leadership, clear distinction of Board and staff roles, collective decision-making, future focus, and proactive initiative.

More specifically, the Board must:

1. Cultivate a sense of group responsibility.
2. The Board, not the staff, must be responsible for excellence in governing. We must be an initiator of policy. We must use the expertise of individual members to enhance our ability as a body to make policy, rather than to substitute their individual judgements for the group's values.
3. Direct, control and inspire the organization.
4. Through the careful establishment of enabling-policies reflecting the Board's values and perspectives, our major policy focus must be on the intended long-term impacts to the WNSS.
5. Enforce whatever discipline is needed to govern with excellence.
6. Discipline must apply to matters such as attendance, preparation for meetings, policy making principles, respect of roles, ensuring the continuity of governance capability and an annual review of board policies. Continual Board development must include orientation of new members in the Board's governance process and periodic Board discussion of process improvement. We must not allow any officer, individual or committee of the Board to hinder its effectiveness or be an excuse for not fulfilling its commitments.
7. Regularly monitor processes and performance.
8. At each meeting ensure that the Board Actions are consistent with the Policy Governance Process and Board-Staff Relationships.
9. Recognize limits.
10. We must work with a view of the expectations of volunteer work, and with recognition of the constraint this may represent in completion and quality at all levels where work is a voluntary contribution.

GP-3 Board Job Description

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Board Job Description	Number:	GP-3
Policy Type:	Governance Process	Amended:	July 7, 2021

GP-9 Board Committees

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Board Committees	Number:	GP-9
Policy Type:	Governance Process	Amended:	July 7, 2021

A Board Committee is established by and that reports to the Board. Board Committees are intended to reinforce the wholeness of the Board's work. They are not decision-making and should never interfere in the delegation from the Board to Managers. Committees should be used on a case-by-case basis, to support discrete and finite issues or projects as mandated by the Board.

Board Committees are to help the Board do its job, not to advise the staff. Committees ordinarily assist the Board by preparing policy alternatives and implications for Board deliberation. In keeping with the Board's broader focus, Board Committees will normally not have direct dealings with current staff operations.

A committee is a Board Committee only if its existence and charge come from the Board, regardless of whether Board members sit on the Committee. The only Board Committees are those the Board may create from time-to-time. Unless otherwise stated, a committee ceases to exist as soon as its task is complete.

Board Committees may not speak or act for the Board except when formally given such authority for specific or time-limited purposes. Expectations and authority must be carefully stated in order not to conflict with authority delegated to the Managers.

Board Committees do not exercise authority over staff. Because the Managers work for the full Board, they must not be required to obtain approval of a Board Committee before an executive action, except where the Committee has been delegated specific authority to act on behalf of the Board.

Board Committees are to avoid over-identification with organizational parts rather than the whole. Therefore, a Board Committee that has helped the Board create policy on some topic or support a project must not be used to monitor the organization's performance on that same subject. The Board retains responsibility and authority to monitor organizational performance.

This policy applies only to committees which are formed by Board action, whether or not the committees include Board members. It does not apply to operational committees formed under the authority of the Managers to support management operations.

All Board Committee members must abide by the same Code of Conduct as governs the Board.

GP-10 Board and Committee Expenses

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Board and Committee Expenses	Number:	GP-10
Policy Type:	Governance Process	Amended:	July 7, 2021

The Board must approve any expenditure by an individual Board or committee member in advance and may set conditions on that expenditure. To be reimbursed, the Board or committee member must provide receipts.

Board members cannot sign for reimbursement of their own expenditures.

GP-11 Reserve Funds Policy

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Reserve Funds Policy	Number:	GP-11
Policy Type:	Governance Process	Amended:	July 7, 2021

When financial circumstances permit, the Board must create and maintain a reserve fund for the purposes of emergency, urgent, or unforeseen financial situations and to fund priorities identified by the Board. This fund may be created from operating or capital budget surpluses. The Board may from time to time direct that a source of revenue such as a donation, bequest or grant be set aside for a reserve fund.

The minimum target reserve fund is three months of the average operating costs which can be calculated as 25% of the average of the previous three years' operating expenses.

Reserve funds may be established for the following purposes:

1. To cover operating expenses including salaries, EI, CPP, WCB, and other payroll related expenses.
2. To cover outstanding financial liabilities including: account payables; vacation payables; possible financial review; and any contracts in progress.
3. For necessary repairs and improvements to assets.
4. To fund long-term special programs or projects.

The fund must meet the following conditions:

1. Contributions must not compromise the organization's ability to fund its operations: the Board has the discretion to draw upon the reserve fund to fund operations if and when required.
2. The Board will review the reserve fund amount annually and will include it in regular financial reports; and,
3. The Board will report annually to the members at the AGM on the details, purpose, contributions and expenditures from the fund;

To make an expenditure from the reserve fund, there must be:

- a written request by the Managers to the Board or a motion made by the Board;
- a review by the bookkeeper, and;
- a Board motion approving the expenditure.

The Board's goal is to replenish the reserve fund within twelve months to restore the reserve fund to the target minimum amount.

GP-12 Code of Conduct

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Code of Conduct	Number:	GP-12
Policy Type:	Governance Process	Amended:	July 7, 2021

Board and Board Committee members shall be bound by the following Code of Conduct.

The Board expects of its members ethical and professional conduct. This includes proper use of authority and appropriate decorum when acting as Board members. It expects its members to treat one another and staff members with respect, co-operation and a willingness to deal openly on all matters.

Board members must be loyal to the WNSS and are accountable to exercise the powers and discharge the duties of their office honestly, in good faith, and in the best interests of the WNSS. This accountability supersedes the personal interest of any member acting as an individual or organizational consumer of the WNSS's services. Members must exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Board members must disclose any potential conflict of interest in accordance with the Conflict of Interest Policy. Board members must not engage in nepotism.

Board members must sign an Oath of Confidentiality and not divulge confidential matters brought before the Board, keeping in mind that any unauthorized statement could adversely affect the interests of the WNSS or its members.

Board members must not attempt to exercise individual authority over the organization except as explicitly set forth in Board policies.

Board members' interaction with the Managers or with staff must recognize that any individual member or group of members does not have authority other than that explicitly stated in Board policy.

Board members' interaction with the public, press or other entities must recognize the same limitation and the similar inability of any member other than the President or Board-designated spokesperson to speak on behalf of the Board.

Board members must not encourage employees who attempt to bypass internal communication processes but must encourage employees to utilize reporting lines within the administration to bring their concerns to the Board.

The Board must be responsible for making policy decisions and ensuring through the Managers that appropriate staff and structures are in place to carry out the policy and day-to-day tasks of the WNSS.

Board members must be familiar with the incorporating documents of the WNSS, the by-laws, regulations, policies and organizational structure of the WNSS, as well as the rules of procedure and proper conduct of a meeting so that any decision of the Board may be made in an efficient, knowledgeable and expeditious fashion. New Board members will be supported by a progressive orientation to ensure familiarity with the WNSS structure and issues, and the process of governance.

Board members are expected to regularly attend Board meetings as stipulated by the Constitution and Bylaws of the WNSS.

Members must ensure that unethical activities not covered or specifically prohibited by the foregoing or any other legislation are neither encouraged nor condoned.

A Board member who is alleged to have violated the Code of Conduct must be informed in writing by the remainder of the Board and must be allowed to present their views of such alleged breach at the next Board meeting. The complaining party must be identified. If the complaining party is a Board member, they and the respondent member must absent themselves from any vote upon resolution of censure or other action that may be brought by the members. Members who are found to have violated the Code of Conduct may be subject to censure.

GP-13 Conflict of Interest

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Conflict of Interest	Number:	GP-13
Policy Type:	Governance Process	Amended:	July 7, 2021

Any Board member who believes they may be in a potential conflict of interest because of experience, knowledge, financial interests, personal relationships or circumstances that could influence or be seen to influence their decision-making in a way that could benefit them or one of their friends or family members personally, financially or otherwise must declare the potential for a conflict of interest prior to engaging in Board discussions on a matter.

After discussion with the other Board members to confirm whether a conflict exists or could reasonably be perceived to exist, the Board member will remove themselves from the discussion and voting when so declared.

Such conflicts of interest include, but are not limited to:

- accepting remuneration for services rendered to the WNSS;
- having direct or indirect financial interests in any purchase order or contract entered into or issued on behalf of the WNSS; and,
- having a family member who stands to profit from any purchase or contract issued on behalf of the WNSS;
- benefiting financially, directly or indirectly, from a decision of the Board.

A Board member who removes himself/herself from participation due to conflict of interest is still included in determining quorum.

The minutes must record all declarations and resolutions of conflict of interest.

GP-17 Board Linkage with Membership

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Board Linkage with Membership	Number:	GP-17
Policy Type:	Governance Process	Amended:	July 7, 2021

Board members must act as the liaison between the WNSS and its members.

The Board must be accountable for the WNSS to its membership as a whole. The Board must act on behalf of the membership as a whole, rather than being advocates for specific interests within the membership. There may, however, be circumstances where the Board seeks out a specific demographic or group that is otherwise not knowledgeable about the services provided by the WNSS to initiate a potential connection.

When making governance decisions, Board members must maintain a distinction between their personal interests as “customers” of WNSS services, and their obligation to speak for others as a representative of the membership as a whole. As representatives of the membership, the Board members must make strong efforts to identify the membership’s wants and needs.

The Board must gather data in a way that reflects the diversity of the membership. It must recognize that diversity assures a broad base of wisdom, and must seek to make decisions considering that input.

GP-18 Board Linkage with Other Organizations

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Board Linkage with Other Organizations	Number:	GP-18
Policy Type:	Governance Process	Amended	July 7, 2021

Government

The Board must ensure that the WNSS's interests are represented to governments, government agencies and non-government agencies and stakeholders.

WNSS Membership in Other Organizations

The Board must consider the merits of membership in other organizations annually. This consideration must include, but not be limited to:

- The degree to which participation in the organization will further the mission and goals of the WNSS;
- The benefits to the WNSS of membership compared to the cost of membership; and,
- The ability of the WNSS to influence the direction of the organization in a measure commensurate with the WNSS's contribution.

Appointments to External Policy or Advisory Committees

Upon request for WNSS appointments to external committees, the Board must assess whether such representation is appropriate within the Board's stated policies and current priorities. If this assessment is positive, the Board must appoint appropriate representatives. Issues of confidentiality, information sharing and WNSS support must be discussed and agreed upon by the Board, the committee's Chair, the WNSS's appointee, and the Managers.

The WNSS's appointee must provide information reports as appropriate, to be determined by the Board at the time of appointment.

Since the WNSS appointee is representing the WNSS Board, the appointee must be kept informed of current Board policies that might affect deliberations of the Committee in question. Any representations made on behalf of the Board must adhere to the stated policies of the WNSS but may not further interpret policies. Any issues requiring the statement of a new policy position on the part of the WNSS must be brought to the WNSS Board for decision.

Relationships with Other Organizations

- The Board must identify other organizations with which it requires good working relationships to achieve its Vision. It must establish mechanisms for maintaining open communication with these organizations. Such mechanisms may include, but are not limited to:
- Inviting representatives of the Boards of those organizations to WNSS Board meetings or having a representative of the Board attend the other organization's meetings;
- Meeting jointly with other Boards on occasion; and,
- Requesting the Managers to establish linkages at a staff level, and to report on areas of mutual

interest and activity;

- Ensuring the Board's President maintains a dialogue and working relationships with the President of stakeholder organizations.

BOARD-MANAGER RELATIONSHIP

BC-1 Delegation to the Managers

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Delegation to the Managers	Number:	BC-1
Policy Type:	Board-Manager Relationship	Amended:	July 7, 2021

All Board authority delegated to staff is delegated through the Managers, so that all authority and accountability of staff—as far as the Board is concerned—is considered to be the authority and accountability of the Managers.

The Board may direct the Managers to achieve specified results, for specified recipients, at a specified worth, through the establishment of Detailed Ends policies. The Board may limit the latitude the Managers may exercise in practices, methods, conduct and other “means” to the Detailed Ends through establishment of Executive Limitations policies.

As long as the Managers use any reasonable interpretation of the Board’s Detailed Ends and Executive Limitations policies, the Managers are authorized and required to establish all further policies, make all decisions, take all actions and develop all activities notwithstanding that this may include consultation with individual Board Members or with individual Members. The Board may also establish, in consultation with the Managers, Operational Policies to guide the Managers’ interpretation of Executive Limitations.

The Board may change its Detailed Ends and Executive Limitations policies, thereby shifting the boundary between Board and Manager domains. By so doing, the Board changes the latitude of choice given to the Managers. So long as any particular policy is in place, the Board and its members will respect and support the Managers choices. This does not prevent the Board from obtaining information from the Managers about the delegated areas.

Only decisions of the Board acting with quorum are binding upon the Managers. Decisions or instructions of individual Board members, officers, or committees are not binding on the Managers except in rare instances when the Board has specifically authorized such exercise of individual authority.

In the case of Board members or committees requesting information or assistance with specific Board authorization, the Managers may refuse such requests that require— in the Managers’ judgement—an undue amount of staff time or funds or is disruptive.

BC-2 Managers' Job Performance

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Managers' Job Performance	Number:	BC-2
Policy Type:	Board-Manager Relationship	Amended:	July 7, 2021

This policy is to be read in conjunction with BC-3 and BC-4.

As the Board's single official link to the operating organization, each Manager's performance is considered to be synonymous with organizational performance as a whole. Consequently, the Managers' job contributions may be considered as executive performance in only the two following areas:

1. Organizational accomplishment of Board policies on Ends.
2. Organizational operation within the boundaries of prudence and ethics established in Board policies on Executive Limitations and the Operational Policies.

BC-3 Monitoring Executive Performance

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Monitoring Executive Performance	Number:	BC-3
Policy Type:	Board-Manager Relationship	Amended:	July 7, 2021

Monitoring executive performance is synonymous with monitoring organizational performance against Board policies on Detailed Ends, Executive Limitations and Operational Policies. Any evaluation of a Manager's performance, formal or informal, may be derived only from these monitoring data with the exception of a newly-hired Manager (see BC – 4).

The purpose of monitoring is simply to determine the degree to which Board policies are being fulfilled. Information which does not do this will not be considered to be monitoring. Monitoring will be as automatic as possible, using a minimum of Board time so that meetings can be used to create the future rather than to review the past.

A given policy may be monitored in one or more of three ways:

1. Internal report: Disclosure of compliance information to the Board from a Manager.
2. External report: Discovery of compliance information by an impartial, external auditor, inspector or judge who is selected by and reports directly to the Board. Such reports must assess executive performance only against policies of the Board, not those of the external party, unless the Board has previously indicated that party's opinion to be the standard.
3. Direct Board review: Discovery of compliance information by a Board member, a committee or the Board as a whole. This is a Board inspection of documents, activities or circumstances directed by the Board which allows a "prudent person" test of policy compliance. Such an inspection is only undertaken at the instruction of the Board, in a Manager's presence.

Upon the choice of the Board, any policy can be monitored by any method at any time. For regular monitoring, however, each Detailed Ends and Executive Limitations policy will be classified by the Board according to frequency and method.

Policy Number	Policy	Method	Frequency
P-2	Detailed Ends	Internal Report	Annually
EL-1	General Executive Constraint	Internal Report	Annually
EL-2	Treatment of Staff	Internal Report	Annually

The Board must provide additional oversight and support during a Manager's probationary period of one year. This may be in the form of quarterly interviews with the Manager, the bookkeeper and the staff or another form deemed more appropriate. This oversight may be provided by the full Board or a committee formed for this express reason.

A formal evaluation of the Managers by the Board will occur at least annually, based on the achievement of the Board's Ends Policies, Operational Policies and non-violation of its Executive Limitations policies. This formal evaluation will be conducted as a summative evaluation of previous regular monitoring data.

BC-4 Monitoring Executive Performance: New Hires

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Monitoring Executive Performance: New Hires	Number:	BC-4
Policy Type:	Board-Manager Relationship	Amended:	July 7, 2021

Notwithstanding on-going Board monitoring of the Managers as outlined in BC-3, the Board is required to provide performance evaluations of a newly-hired Manager during the one-year probationary period from date of hire. This evaluation process follows closely the key performance indicators of the current Managers' Job Performance policy. This policy should not be considered in violation of a Policy Governance model in the instance of a newly hired Manager.

In the case of new hires under probation, the purpose of monitoring is to determine the extent to which the Manager is fulfilling the job description according to the key performance indicators and, to determine whether the Manager should move from probation to permanent status upon completion of the probationary period. Permanent status, however, does not mean "guaranteed employment", either full-time or part-time, or remuneration in the event that WNSS finds itself financially unable to sustain the cost of employing a Manager.

Evaluation consists of three perspectives: 1) self-evaluation by the Manager; 2) feedback from the WNSS staff as requested and collected by the Manager and 3) feedback from the Board. Two evaluations are required, an interim evaluation and a final (summative) evaluation.

Interim evaluation at the mid-point (six months after start date)

This evaluation is a formative process. It provides the Manager with an indication of their strengths and growth areas and allows for the Manager to plan for and seek additional training and support over the probationary period where considered reasonable and within the financial means and operational needs of the organization. The Board may also wish to seek financial assistance to support these needs.

The interim evaluation follows the Manager's Job Performance policy (BC-2) and lists the key performance indicators and their sub-points and is intended to determine the current level at which the Manager is meeting each indicator according to the following scale: above standard, on standard, growth area (comments are required for this score), marginal or below standard (comments are required), not at this time (N/A) (comments are required).

The interim evaluation process begins with a Manager's self-evaluation; followed by input from the staff, including input from the bookkeeper; followed by the Board evaluation. The goal is to arrive at one, overall, interim evaluation that is mutually agreed upon between the Manager and the Board. Where this cannot be achieved the exceptions, including those of the staff, should be noted. The interim evaluation requires signatures from the Manager and at least two Board members.

Final (summative) evaluation (just prior to the one-year anniversary date)

This evaluation is a summative process. It provides the Manager with an evaluation of their strengths

and growth areas for the purpose of allowing the Board to make an informed decision to recommend the Manager for permanent employment status.

Recommendation for permanent status, however, does not end the evaluation process of the Manager; rather this is an annual occurrence as outlined in BC- 3. In addition, at least once in every five years the Board undertakes a similar evaluation process of the Manager, as the one described in this policy.

The summative evaluation follows the Manager's Job Performance policy (BC-2) and lists the key performance indicators and their sub-points and should include some reference to the strategic plan. This evaluation is intended to determine the current level at which the Manager has met each indicator throughout the probationary year. Like the interim evaluation format, the summative evaluation uses the following scale: above standard, on standard, growth area (comments are required for this score), marginal or below standard (comments are required), not at this time (N/A) (comments are required).

The summative evaluation process begins with a Manager's self-evaluation, followed by input from the staff, which is then followed by the Board evaluation. The goal is to arrive at one, overall, interim evaluation that is mutually agreed upon between the Manager and the Board. Where this cannot be achieved the exceptions, including those of the staff, should be noted and a plan for resolving these exceptions determined between the Manager and the Board as part of the summative evaluation report. The summative evaluation requires signatures from the General Manager and at least 80% of Board members active during the probationary period.

Policy Name:	Trail Use Policy	Number:	OP-05
Policy Type:	Operational Policy	Amended:	July 7, 2021

Background

Individual members shall refrain from engaging in compliance monitoring activities unless the Club Manager has expressly authorized them to do so. Individual members should report concerns about unauthorized trail use to the Club Manager.

All skiers must follow the Trail Etiquette:

1. Be courteous and helpful to fellow skiers.
2. Always ski in control.
3. Move to the right side of the trail when meeting oncoming skiers.
4. Faster skiers should only pass slower skiers when it is safe to do so.
5. On two-way trails, slow down and stay right in blind corners, uphill and downhill.
6. Obey all trail signs and ski in the posted direction on one-way trails.
7. Avoid skate skiing over classic tracks whenever possible.
8. Keep clear of the trail when stopping. Do not stop where you are not visible to others.
9. When skiing in groups, always leave space for other trail users.
10. If you need to walk, stay to the side of the trail and avoid walking on classic tracks.

11. Snowshoers should use the skate lane, avoid snowshoeing on classic tracks and move to the right when approaching or being passed by a skate-skier.
12. Be a responsible dog owner by making sure your dog is always under control and by cleaning up after it.

OP-11 Fluorinated Wax Policy

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Fluorinated Wax Policy	Number:	OP-11
Policy Type:	Operational Policy	Created	November 9, 2022

Background

Many older ski waxes contain perfluoroalkyls substances (PFAS) that bioaccumulate and biomagnify in the food chain. These products, commonly found in waxes called “fluoro waxes”, pose a significant risk to the environment and to human health, particularly for pregnant women. These waxes are sometimes labeled “Fluoro”, “HF” “MF” or “LF”.

Human exposure to fluoro wax occurs when the wax is being applied to skis. The release of toxins to the environment occurs when the wax wears off during skiing. These toxins remain in the environment for generations.

Due to the proven negative environmental and health impacts of PFAS, the International Ski Federation declared a ban on the use of all forms of fluoro wax, both glide wax and grip wax, in 2019. Manufacturers have also ceased making waxes containing fluorinated substances. Many excellent alternatives are now available.

POLICY

Waxes containing fluorinated substances are not allowed to be used by recreational or competitive skiers on the Whitehorse Nordic Ski Society trails. This applies to glide wax, grip wax and top coat products. This rule applies even if the waxes are applied at home or elsewhere.

Waxes containing perfluorinated substances are not permitted in any Whitehorse Nordic Ski Society facilities, including the ski chalet, huts and other permanent or temporary structures (e.g. race office, sea cans, tents etc.)

A full list of permitted waxes can be found here:

https://nordiqcanada.ca/wp-content/uploads/Fluoro-free-Wax-List_bilingual.pdf

Members can contact the club manager to ask if the wax they wish to use is a permitted wax.

Approval

The Board approves this Policy.

Implementation

The Club Manager is charged with the implementation and day-to-day interpretation of this policy. The club manager will educate and inform members about the policy and will assist members in identifying and disposing of fluorinated products. The Manager reserves the right to suspend or revoke membership privileges in instances of repeated non-compliance with this policy.

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Donation Policy	Number:	OP-13
Policy Type:	Operational Policy	Approved on:	November 15, 2023

Background

The club is occasionally asked to make monetary or in-kind donations to various groups, endeavours projects or events. At times, there may be equipment that no longer serves the club's purposes that may need to be disposed of. This policy is intended to guide managers' or board decisions regarding monetary or in-kind donations.

POLICY

Definitions

Monetary donations are any donations in cash or donations of club revenues, such as a percentage of day pass revenues.

In-kind donations are donations of club goods, assets or services, including disposal of equipment no longer required by the club, services of paid staff or loans of equipment.

General

As a non-profit organization, the club should only make monetary donations in exceptional circumstances. Both in-kind and monetary donations should be linked to helping the club achieve its overall goals and strategies or enhancing services to those who use our trails and facilities.

Donations – Monetary or In-kind

Managers and the board will use the following criteria when determining whether to make a monetary or in-kind donation:

- In-kind donations are preferred. For example, donating a number of free ski passes to a group so they can experience skiing is preferred to making a monetary donation to that group from ski pass revenues.
- Donations should promote the use of our trails and services, the sport of cross-country skiing generally, be linked to advancing the goals and objectives of the club, as set out in the club's constitution and strategic plan or enhance services to those who use our trails and facilities.
- Donations will not be made to organizations or groups from which the club would not accept sponsorships or promotions pursuant to Policy OP-09.

Monetary donations

The Board may establish an annual amount of monetary donations in its annual budget. In doing so, the Board may wish to consider setting this amount based on a proportion of the prior year's revenues. The total amount of monetary donations should not exceed this amount without the Board's prior approval.

The board must approve any monetary donation.

In-kind donations

Managers are responsible for making decisions on in-kind donations, taking into account the Executive Limitations and the policy above.

Managers should advise the board at the earliest opportunity of any in-kind donation of goods, services, assets or equipment and keep track of donations made.

OP-15 Purchasing Policy

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Purchasing Policy	Number:	OP-15
Policy Type:	Operational Policy	Approved:	November 19, 2026

Background

Staff are responsible for making purchases on behalf of the Whitehorse Nordic Centre. What is purchased and the origin, fabrication method and materials of the products or services can have economic, social and environmental impacts, both positive and negative. This policy provides guidance on making purchases. It is not directive and allows managers to exercise their discretion in making purchases, taking into account their primary responsibility for the financial well-being of the organisation.

POLICY

When making purchases of products or services for Whitehorse Nordic, staff will take into account the social, economic and environmental impacts of purchases by considering the following:

- Is the product or service made locally, regionally or within Canada? If not, is there an equivalent local, regional or national product or service that can meet WNC's needs at a roughly equivalent price?
- Does the product or service, in its fabrication method, materials or origin, present a risk to the environment? If so, are there equivalent products or services that could be purchased that present fewer or no such risks at an equivalent cost? Are there mitigations that can be implemented to reduce the risks?
- Does the product or service, in its fabrication method, materials or origin, have an impact on human rights and the well-being of populations or individuals? If so, are there equivalent products or services that could be purchased that present fewer or no such impacts? Are there mitigations that can be implemented to reduce those impacts?

Approval

The Board approves this Policy.

OPERATIONAL PROCEDURES

OPR-01 Trails and Facilities Procedures

WNSS Managers' Procedures			
Policy Name:	Trails and Facilities Procedures	Number:	OPR-01
Policy Type:	Operational Procedure	Amended:	July 7, 2021

These procedures and guidance may be modified at any time by the Managers. Managers should notify the Board of any changes to these procedures.

Trail Opening, Closing and Restrictions

The WNSS's Licence of Occupation for the ski trails issued by the Yukon government provides the ski club with exclusive use of the land, for the period October 1 to April 30 each year, provided that no unreasonable fee is charged or condition attached to the use of the land.

Pre-season Access Restrictions

The ski club's Operations Manager, in consultation with the Club Manager, may close or restrict access to the ski trail network or parts of the network between October 1 and April 30 in order to preserve trail and snow conditions for skiing and snowshoeing and for safety reasons. The Managers should clearly communicate restrictions to members and other users (disc golfers, mountain bikers, walkers etc.). No advance notice of trail restrictions is needed. Restrictions should be publicized and visibly posted.

Declaring Ski Season Open or Closed

The ski club's Operations Manager, in consultation with the Club Manager, is authorized to declare an official opening and closing each year. In making this decision, the Operation Manager will take into account:

- whether the ground is sufficiently frozen to hold the snowpack;
- whether grooming is possible and conditions are safe for grooming equipment;
- whether the trails are sufficiently safe for skiing and snowshoeing;
- the expected level of use of the trails.

The Managers should clearly communicate season opening and closing to members and other users (disc golfers, mountain bikers, walkers). No advance notice is needed for season opening and closing.

Cold or Extreme Weather Event Closures

The Club Manager should take the following into account when making decisions about opening and closing trails and facilities due to weather:

- Skier Safety - being open in extremely cold temperatures or extreme weather events sends a message that it is safe to ski or snowshoe.

- Rescuer Safety – When the ski chalet is open there is an implication that help is available by phoning the ski club. If somebody is lost, overdue or injured, it will put ski club volunteers/staff/EMS at risk if a rescue is required.
- Staff safety – requiring staff to travel to work may be unsafe.
- Use of Chalet/cost of staffing: during extreme weather, very few people may choose to ski or snowshoe resulting in unnecessary opening, closing and staffing expense.
- As a general rule, when the air temperature as posted by Environment Canada at 7am at the Whitehorse Airport is -25C to -31.9C (without windchill) the Manager should consider reducing Ski Chalet (and wax room) opening hours. When the air temperature as posted by Environment Canada at 7am at the Whitehorse Airport is -32C or colder (without windchill) the Manager should consider closing the Ski Chalet and Wax Room.

Public Health Event Restrictions

Facility Use (Chalet, huts, storage, etc.)

Trail Use Restrictions

The Operations Manager may restrict or close trails throughout the season for reasons including:

- skier/snowshoer safety
- special events
- surface conditions
- environmental concerns

Grooming and Trail Maintenance

The Operations Manager will consider the following when making decisions about grooming and trail maintenance:

- Safety for skiers, staff and grooming equipment
- Satisfying membership demand
- Special events
- Cost of labour, materials and equipment
- Internal factors such as staff and volunteer availability and equipment condition
- External factors such as weather and snow conditions
- Prioritizing trails that can be skied by the greatest number of skiers

The following is general guidance for the Operations Manager in determining grooming priority under optimal snow conditions. The Operations Manager maintains complete discretion in determining grooming priority based on the factors above and other factors that may arise.

Categor y	Trail Name	Grooming frequency under optimal conditions
A	Copper to Best Chance Corner, Upper Valley South, Dog, Sundog, Selwyn's Loop, Coyote, Chalet Trail, Stadium	At least 3 times a week
B	World Cup 10K, Powerline, Pierre Harvey Trail, The 7.5K, Raven, Raven Cutoff, Whisky Jack, Cox Leg, Lynx, Lower Valley, Valley Link, Copper from Best Chance Corner to Gravel Pit, Jeff Link, Upper Valley North, Logan Burn, Ketza Connector, Nighthawk, Nugget, 007, Olympic, Olympic Connector, World Cup 5K, KK Cutoff, Monique Waterreus Trail, Skookum Trail, Stadium Trail, Fraser Loop & Skyline (usually October to mid-November if conditions on lower trails are marginal)	At least twice a week

OPR-13 Emergency Response on the trails

Whitehorse Nordic Ski Society POLICY			
Policy Name:	Emergency Response	Number:	OPR-13
Policy Type:	Operational Procedure	Amended:	TBD

Background

Ensuring the safety of skiers is the WNSS's highest priority.

This procedure applies to incidents that require an emergency response. It is triggered when an incident requiring emergency medical care is reported to WNSS staff.

Pursuant to Policy OP-01, the WNSS Board is responsible for ensuring that its operations and activities occur in a manner that protects the mental and physical well-being of its staff, members and guests.

Pursuant to Executive Limitation EL-6, the Managers must not "cause or allow any practice, activity, decision or circumstance which is detrimental to the safety of staff, members or users of WNSS's trails and facilities";

Accordingly, the ski club manager and operations manager (WNSS staff) are operationally responsible for developing emergency response procedures on WNSS trails.

WNSS staff work in partnership with professional emergency services personnel including 911, the Whitehorse Fire Department, Emergency Medical Services and the City of Whitehorse to provide emergency response.

The ski chalet is accessible by professional emergency services personnel within 10 minutes, 24 hours a day, 7 days a week. The chalet is located about 10 minutes from the Whitehorse General Hospital.

The procedure below is based on delivering consistent, high quality emergency response by the fastest means possible.

Emergency Response Procedure

1. The skier requiring emergency response, the skier's companion or the person who first encounters the skier should call 911 and identify the type of injury and approximate location on the trails. The companion or person encountering the skier should remain with the injured person unless doing so puts their own health and safety at risk.
2. Emergency Services (911) will contact WNSS staff (club manager or operations manager) to organize the response. WNSS staff will direct a team from the Whitehorse Fire Department (WFD) to the trailhead closest to the incident. Based on the reported incident severity, 911 screening will determine whether paramedics (EMS) should be sent to the incident as well. The WFD and Emergency Services (911) will direct paramedics to the meeting point.
3. The WFD will meet club staff and EMS personnel (if called) at the designated trailhead with the WFD's off-road/on track vehicle.

4. WNSS staff WFD and EMS personnel (if called) will head toward the injured person on board its tracked vehicle.
5. If the designated meeting point is at the Chalet, WNSS staff may opt to take an emergency responder to the site of the incident on a snowmobile, with the tracked vehicle following the snowmobile's tracks.
6. If WFD or EMS services are not available or if warranted by the situation (e.g severe weather, remoteness) RCMP and/or 911 services may trigger other resources like SOMET (Special Operations Medical Extrication Team) team or Search and Rescue.
7. Following the incident, WNSS staff will prepare an incident report using the emergency response incident report form provided on Nordiq Canada's website. In preparing the report, WNSS staff may interview the injured person, rescuers and others involved in the rescue. The purpose of preparing the report is to determine how emergency response procedures can be improved and safety issues addressed.
8. WNSS staff should make necessary changes to procedures and address safety issues arising from the report as soon as possible.
9. WNSS staff will advise the WNSS Board of incidents requiring an emergency response at the next Board meeting and will include the incident report. The purpose of sharing this information is to determine if adjustments or refinements to WNSS policies and procedures are warranted.
10. WNSS staff will follow up with those involved in the incident and emergency response with any actions they have implemented following the incident.
11. WNSS staff are responsible for communicating the emergency response procedures to skiers, including by adding instructions on emergency procedures and emergency contact numbers to signage, the WNSS website, day passes and season passes.
12. Before each ski season, WNSS staff will confirm the above procedure with 911, the WFD, the RCMP and EMS.

Safety Tips:

- Skiers should carry a cell phone at all times. There is cell service everywhere on the trail network.

- Those skiing alone should let someone know about their planned route.
- Those on longer outings should carry water, food and extra layers.
- Consider adding location detection applications to your phone (e.g. "What3words" used by the Whitehorse Fire Department).

OPR-15 Training with a Biathlon rifle

Whitehorse Nordic Ski Society POLICY			
Procedure Name:	Training with a Biathlon rifle	Number:	OPR-15
Policy Type:	Operational Procedure	Amended:	TBD

Background

Biathlon Yukon and the Whitehorse Nordic Ski Society have a long standing relationship. We share grooming resources, volunteers and more importantly athletes who train in both disciplines.

This operational procedure will establish a way for biathletes to come and train with their rifles in the Mt McIntyre ski stadium in a safe way for all users of the facility. Early training on skis is essential for athletes and the club would like to offer a way for biathletes to use the artificial snow loop made by Cross Country Yukon when possible. Practice on natural snow will also be permitted later in the season or if the snow falls early in the season.

The Whitehorse Nordic Ski Society is very aware of the image of carrying a rifle on the trail network, as well as on related venues like parking lots. We are located close to downtown Whitehorse and adjacent to a very busy recreational center where visitors might not be familiar or comfortable with seeing athletes carrying rifles.

Procedure

- Biathlon Yukon or a biathlon coach planning to attend the training, will reach out to the club manager at info@xcskiwhitehorse.ca and schedule the training time/s.
- Only group training supervised by a biathlon coach is permitted. *Supervision means that the coach should see the athletes training at all times.*
- Non skiing coaches can attend training but must wear snowshoes.
- Athletes and coaches must have a valid day pass or season pass with the Whitehorse Nordic Ski Society to attend the training.
- Biathletes and coaches must meet close to the North gate of the Dog parking lot.
- Rifles must stay in vehicles until all biathletes and coaches are present and ready to begin training.
- Rifles are not permitted in the Mt McIntyre Ski Chalet/Waxroom as well as on any parking lot and Trailhead other than Dog Parking lot.
- Biathletes and coaches must wear Biathlon Yukon jackets and/or tuques to be easily identified by other users as the ski stadium will remain open to the public.
- Rifles must remain in their soft case with a padlock on at all times (before, during and after practice).
- No ammunition is permitted.
- Access to the ski stadium will be through the Ski Tube (under Sumanik drive) on skis or on foot, if snow is not present.
- Training area will be limited to the stadium.
- Biathletes and coaches will enter and exit the training area together as one group.

OPR-16 Locker Rental

WHITEHORSE NORDIC CENTRE POLICY			
Policy Name:	Locker Rental	Number:	OPR-16
Policy Type:	Operational Procedure	Amended:	

Rationale

The Whitehorse Nordic Centre offers seasonal locker rentals to provide members with convenient storage for their gear throughout the ski season. Two types of lockers are available: **Change Room Lockers** and **Ski Lockers**.

POLICY

1. Locker Types & Fees

- **Changeroom Lockers**
 - Located in the men's and women's changerooms.
 - Suitable for storing personal items (not skis).
 - Fee: **\$60 per season**.
- **Ski Lockers**
 - Located in the chalet waxroom.
 - Built with either 2 or 4 slots per locker, plus small shelves.
Each rental slot includes space for two pairs of skis and poles, and two pairs of ski boots can be stored on the shelves.
 - Fee: **\$70 per season**.

2. Eligibility

- Locker rentals are available **only to season pass holders**.
- All lockers (Changeroom and Ski Lockers) are allocated through a **lottery draw**.

3. Locker Allocation (Draw Process)

- Two separate draws will be held on **November 1st** each year: **One draw for Changeroom Lockers** and **one draw for Ski Lockers**
- Season pass holders may enter the draw when purchasing their season pass by adding the appropriate add-on to their cart.
- Selected individuals will be contacted and must complete payment **within two weeks** of notification.
- If payment is not received by the deadline, the Nordic Centre will re-draw names and reallocate the lockers to other members on the waitlist.
- **The draw is completely equal for all applicants each season; no priority is given to previous renters.**

4. Disability Accommodation

- Members with **disability** that require easier access to the ski chalet may request a Ski Locker or a Changeroom Locker **outside of the draw system**.
- These members should contact the **Nordic Centre management directly** to discuss their needs and arrange locker allocation.
- **Requests due to disability must be submitted by October 15 each year.**
- Disability accommodation requests will be treated with **priority and confidentiality**.

5. Ski Programs

Whitehorse Nordic recognizes the operational value of locker access for organized programs. To be eligible, a non Whitehorse Nordic ski program must operate at least once per week throughout the ski season. **Eligible programs will receive a discounted rate of 50%.**

The number of lockers allocated to programs may vary from year to year, depending on demand and operational capacity.

Program coordinators wishing to request a locker must submit their application to the Whitehorse Nordic Centre between September 15 and October 15 each year. Allocation decisions will be made following this application period.

6. General Conditions

- Lockers may not be sublet or passed on to another person.
- If a locker is no longer required or needed through the season, the slot should be returned to the Centre and will be reallocated to another person through a lottery. A partial refund will be issued for lockers returned before January 15.
- The Nordic Centre is **not responsible** for lost, stolen, or damaged items stored in lockers. Lockers must be cleared out by the **end of the ski season**. Items left behind will be removed by staff.
- Rental fees are **non-refundable**.
- The Nordic Centre will provide each renter with the **lock combination** once payment has been received.
- **Lockers should not be overfilled** to ensure proper closure and to avoid blocking access for others sharing the space.
- Locker numbers and locker slots are allocated randomly. Requests to accommodate families or groups will be considered, but cannot be guaranteed.
